# Perfil

Patrice Mangin is director of the Innovations Institute in Ecomaterials, Ecoproducts and Ecoenergy, bio-economy/bioenergy industry chair holder at University of Québec in Trois-Rivières, and CEO of BioEnergy La Tuque. He holds a PhD in process engineering from Institut National Polytechnique de Grenoble and demonstrates an over 40-year successful record of accomplishments in the pulp & paper and forest products industries. As CEO, he built and launched the Integrated Pulp and Paper Centre (Trois-Rivières). He was CEO of Centre Technique du Papier in Grenoble, scientific director of a Swedish research network, and section head at FPInnovations. He held the Quebecor (UQTR) and the StoraEnso (Royal Institute of Technology, Stockholm) industry research chairs. He is/has been a member of above 30 boards; (co)authored 300+ articles, and presented 600+ conferences all over the world. Dr. Mangin received many awards, including gold medals and excellence in research from UQTR, TAPPI, PAPTAC, and TAGA. PAPTAC and TAPPI Fellow, he is a PAPTAC Honorary Life Member.
