“Future Accelerators: UEA 2017 vision”

Descripción detallada:

The UAE Centennial Plan aims to make the UAE the world's leading nation by 2071. This plan has urged the launch of different initiatives that accelerate the process of innovation and successfully enable the adoption of the Fourth Industrial Revolution. The keynote speech will shed light on the programmes that facilitate the collaboration between Dubai government entities with innovative SMEs to co-create solutions for bold challenges of tomorrow.

Amer Alaya
